

Creatives Course

Increase your love of embroidery through creativity, experimentation and an increased knowledge of colour and design.

Our Creatives Course will increase your love of embroidery by encouraging your ability to stitch creatively and experiment, whilst gaining increased knowledge of colour and design. One of the greatest joys of embroidery is discovering the possibilities of stitch.

The course covers basic stitch and design. Each month you will receive a lesson pack containing all fabric and a variety of threads with instructions required to complete the lesson. It is perfect for those who find it difficult to attend classes and would like to explore their interest in embroidery in a way that fits with their own schedule.

At the end of the course you will have a completed set of design exercises, lesson projects and a much appreciated stitch sampler. Students will be awarded a Certificate of Completion.
