Learn the traditional Japanese stitch technique called Sashiko by working one design to create a panel.

Sashiko is a traditional domestic craft in Japan. It has been adapted to contemporary embroidery designs and uses. In this workshop you will learn the traditional methods of transferring designs to fabric, starting / ending stitches and the order of working. Your kit will provide the resources to complete a panel suitable for a needle case or small project bag using the hemp leaf design.

Kit cost \$10.00.
