SUMMER SCHOOL 2024 PERSPECTIVES OF PARIS

Be inspired by the beautiful Jardin des Tuileries and create a
"Paris Garden Threads" art doll

Paris Garden Threads Art Doll WILMA SIMMONS

23rd January 2024
1 Day - Workshop

Be inspired by the beautiful Jardin des Tuileries and create a "Paris Garden Threads" art doll, with slow stitching and hand embroidery. In this workshop you will interpret your favourite colours and shapes of a Parisian garden in fabric and stitch from a photograph of your own. These art dolls have a simplified shape with stick arms and legs, highlighting the hand stitched fabric collage on the body which can then be further embellished with embroidered flowers, leaves or trees. Facial features are optional - the samples have no facial markings to indicate that beauty is not defined in any specific way
This workshop is designed for beginners as well as more experienced stitchers
