START STITCHING

with Margaret Sollan 2026

Are you wanting to try a new activity, or have you stitched in your earlier days and want to try stitching again to refresh your skills?
Start Stitching could be for you

about the course

Over the course of six three-hour lessons you will be introduced to stitches that will become the foundations of your future projects. They include the most popular embroidery stitches. After practising stitches students will create pages for a Stitches sample book that will be constructed at the end of the course. Different fabrics and threads are used for the various stitches. Students will be encouraged to adapt stitches in in terms of size, spacing and shape.

about your learning

Other topics covered during the course will be starting and ending threads, using hoops, selecting threads to use and transferring designs. A variety of fabrics and threads will be experimented with throughout the course.

some details...

A kit will be available to complete all the lessons.
